SUMMARY

Graduate Software Engineer with an MSc in Information Systems from Dublin Business School and hands-on experience building full-stack web applications using JavaScript, React.js, Node.js, and REST APIs. Skilled in designing scalable applications, writing clean maintainable code, and collaborating within agile engineering teams. Experienced in CI/CD pipelines, debugging, and system optimisation. Passionate about developing technology solutions that support data-driven decision making and financial systems in fast-paced environments.

EDUCATION

Master of Information Systems with Computing Dublin Business School	Jan 2025 - Jan 2026
Bachelor of Business Administration with Computer Applications MIT Arts, Commerce & Science College ,Pune	April 2021 - July 2024

TECHNICAL SKILLS

- **Programming Languages** : JavaScript (ES6+), TypeScript, Python, C, C++
- **Frontend Development** : React.js, Next.js, HTML5, CSS3, Responsive Web Design
- **Backend Development** : Node.js, Express.js, REST API Development
- **Databases** : MongoDB, SQL Server, SQL
- **Cloud & DevOps** : Docker, CI/CD Pipelines, GitHub Actions, Azure DevOps
- **Tools & Platforms** : Git, GitHub, Vercel
- **Testing & Debugging** : Jest, Cypress, Unit Testing, Debugging

PROJECT EXPERIENCE

Bookstore Management System – Full Stack Web Application

- Designed and developed a scalable full-stack web application using React.js, Node.js, Express.js, and MongoDB.
- Built REST APIs for managing product data, customer accounts, and transactions.
- Implemented secure authentication and role-based access control.
- Developed modular frontend components to improve scalability and maintainability.
- Integrated CI/CD pipelines using GitHub Actions for automated testing and deployment.

OM Security Services – Online Security Booking Platform

- Developed a responsive web platform enabling users to book security services online.
- Built reusable React components and responsive UI layouts to enhance user experience.
- Implemented backend services for booking workflows, authentication, and database management.
- Optimised application performance and improved system reliability.

Automated Container Deployment & Cloud Infrastructure

- Automated application deployment using Docker and CI/CD pipelines.
- Containerized applications to ensure consistent runtime environments across deployments.
- Implemented GitHub Actions workflows for continuous integration and delivery.
- Collaborated with team members to develop reusable infrastructure configurations.

CERTIFICATIONS

- **Machine Learning Using Python** – Simplilearn SkillUp
Concepts of supervised and unsupervised learning, model evaluation, and implementation using Python.
- **Front End Development Libraries** – freeCodeCamp
Hands-on development using React, Bootstrap, and Redux.
- **Data Visualization** – freeCodeCamp
Data visualization techniques using D3.js and modern web technologies.
- **Responsive Web Design** – freeCodeCamp
300+ hours of coursework in HTML, CSS, and responsive UI development.

SOFT SKILLS

Analytical Problem Solving | Debugging | Troubleshooting | Attention to Detail | Communication | Collaboration | Agile Mindset | Adaptability | Technical Documentation | Stakeholder Communication
